A Quiet Day at the Park - Improvised Waterworks.

Chickamauga National Park, May 28. -Sunday was a quiet day at Camp Thomas. The Second Nebraska regiment arrived and were assigned to the campgrounds selected for the first division of the Third corps. Only two battalions arrived yesterday. The second battalion of the Second Nebraska, which had become seperated from the regiment at St. Louis, came in over the Cincinnati Southern. The belated battalion was commanded by Major W. C.

The First batallion of the One Hundred and Fifty-seventh Indiana infantry arrived in Chattanooga yesterday, accompanied by the regimental band of 24 pieces. The batallion spent the day on

Lytle hill during the night. As a result of the few arrivals the railroad yards which have been enormously congested with loaded and empty cars for nearly a week were given an opportunity to clear off the tracks and sidings to make room for the troops that begun

to arrive this morning. Twenty-five cars of provisions arrived yest day and were stored in the large warehouses now completed on the park grounds near the depot of the railroad company. Fifty-one of the latest and most improved ambulances, built with a special view to adaptibility in a hot climate, arrived from South Beud, Ind. and will be distributed to the first

Colonel Coit

It was not intended to send any of the men away until they were uniformed and equipped, but the need of men for the Philippines has brought about the necessity of getting more men in the regular army regiments in the west.

Colonel Cook yesterday asked for volunteers to go to the Philippines and 900 responded almost instantly but only 600 are wanted to make out the Third batallion of two regiments. Indeed, long before it was completed he had the most significant warnit that his vital energies were being undermined, although it was not till August that his physicians definitely told him that one of his lungs was effected. At the earnest solicitation of his physicians and family he resolved to try the effect of the Colorado climate, and early in September last removed with his family to Denver, where he was welcomed by a host of friends. He received, however, little or no benefit from the change and since January has been rapidly failing. President of the Revolutionary Junta Talks of the Results of the Battle-The Large Casino Was Totally Destroyed by the American Boat's Guns-High Price of Provisions-Horseflesh Worth Seventy-Five Cents a Pound-Insurgents In Dire Distress.

Key West, May 23.-There were only one or two ships in the harbor yesterday and they were coaling with all haste to get away to join their follows in action, which all are convinced is only a matter of days, perhaps hours. Speculation is still concentrated on the whereaboats of Admiral Cervera's squadron, the general opinion favoring some sides of the island are now patrolled by United States warships, the naval authorities will not admit the possibility

Reports from Admiral Sampson's squadron say that all is quiet off the northern coast of Cuba. Nothing from Commodore Schley is expected before tomorrow. A rumor has reached here that four American warships, while bombarding Santiago de Cuba, had been driven off by the Spanish fleet, but the story is generally discredited.

Senor Ernesto Castro, a well known lawyer, and president of the revolutionary junta of Cardenas, arrived here yesterday on the United States gunboat Annapolis. During the recent bombardment at Cardenas Senor Castro was in the bay in a small boat, trying be watched with much interest. The to reach the American vessels and get transportation to the United States on an important mission. He was compelled to return to the shore, where he saw and heard of the results of the

bombardment. The Spanish gunboats that lured the United States torpedoboat Winslow into the death trap were the Antonio Lopez, Lealtad, and Ligera. During the day about the location of the fleets, refight the two former retreated behind opened fire on the Winslow and decoyed her into the channel. The Spanish troops formed on the public square, not daring to go to the wharves; all of the Spanish flags were lowered, as they furnished targets, and the families all

fled to Jovellanos. Senor Castro says an American shell exploded in the very entrance to the Spanish casino, shattering the building and setting it on fire. The Casino, which had been used as a military headquarters and infantry barracks, and which was the largest structure in the town, was utterly destroyed. Other buildings were wrecked. Some of the shots went so far as the Triente sugar plantation, two miles in the interior.

The Spanish loss of life, Senor Castro believes to have been very heavy. It was so reported. After the bombardment ceased the military commander pressed all able bodied men into the work of carrying sand to build new batteries, and the next day 1,200 men were brought from Matauzas and Havana to continue the work.

Senor Castro, after passing four days on the Piedras Key, signalled the United States gunboat Wilmington and was taken off. He says famine prevails everywhere in Cuba. In Cardenas rice is 25 cents a pound, condensed milk sells at \$1.50 per can and horseflesh brings 75 cents a pound. There is no sail for Cuban waters. A Spanish batbeef or bread.

The insurgents are in dire distress. Formerly provisions were smuggled from the cities, but that relief is now impossible since the cities themselves are starving. The insurgents are trying to subsist on peppery wood and palm buds. Senor Castro tasted meat today for the first time in five weeks.

EXCESSIVELY DELIBERATE.

Movements of Admiral Cervera Criticised by London Times,

London, May 23. - The Times this morning, in an article reviewing the war, takes it for granted that Admiral Cerevera's squadron coaled in Venezuelan waters from four British colliers. It suggests that the cruisers Vizcaya and Infanta Maria Teresa risked a disadvantage in being reported there in consideration of their ability to send dispatches to General Blanco and then to have rejoined the flagship at a prearranged rendezvous and to have arrived at Santiago on the 19th.

The Times says: "Even if it took & longer route to escape observation, Admiral Cervera's force has been excessively deliberate in its movements and his fast cruisers have not yet shown great speed. His strategy, so much boasted at Madrid, is not yet apparent. Probably no subject connected with health is so important and so little understood as the conservation of vital The human organism is a wonderful machine, and is so constructed that if exhaustive draughts are made upon the vital forces during youth and middle life, the mechanism responds for the time, but at the expense of its future usefulness. The man who overworks or exhausts himself day after day is constantly overdrawing his store of vital force. Finally the mechanism of supply breaks down and the man becomes a physical bankrupt. The mechanism of supply in a man is his stomach. There the food is transformed into vital force. If the stomach is weak and the di-gestion impaired, the body ceases to re-ceive and store up vital force. If the draught is continued, consumption or some other equally fatal disease is the result. Dr. Pierce's Golden Medical Discovery is a great producer of vital force. It enables man to daily store up energy to do almost any amount of work or stand any amount of exposure. It does its work through the It makes the weak stomach It facilitates and increases the strong. It facilitates and increases the flow of digestive juices. It promotes and perfects the assimilation of all the lifeperfects the assimilation of all the life-giving elements of the food. It is the great blood-maker and flesh-builder.

Mr. F. M. Robinett, of Xenophon, Tenn., writes: "I can heartily recommend Dr. Pierce's Golden Medical Discovery for indigestion and torpid liver. I was very bad off and tried different doctors with but little benefit. I decided to give the 'Golden Medical Discovery' a trial and I soon began to improve. A Quiet Day at the Park - Improvised Waterworks.

Chickamauga National Park, May 23. -Sunday was a quiet day at Camp Thomas. The Second Nebraska regiment arrived and were assigned to the campgrounds selected for the first division of the Third corps. Only two battalions arrived yesterday. The second battalion of the Second Nebraska, which had become seperated from the regiment at St. Louis, came in over the Cincinnati Southern. The belated battalion was commanded by Major W. C.

The First batallion of the One Hundred and Fifty-seventh Indiana infantry arrived in Chattanooga yesterday, accompanied by the regimental band of 24 pieces. The batallion spent the day on Lookout mountain and reached the park last evening sleeping under the stars on

Lytle hill during the night. As a result of the few arrivals the railroad yards which have been enormously congested with loaded and empty cars for nearly a week were given an opportunity to clear off the tracks and sidings to make room for the troops that begun to arrive this morning.

Twenty-five cars of provisions arrived yest. day and were stored in the large warehouses now completed on the park grounds near the depot of the railroad company. Fifty-one of the latest and most improved ambulances, built with a special view to adaptibility in a hot climate, arrived from South Bend, Ind., and will be distributed to the first

FORT M'PHERSON.

Recruits Arriving at the Rate of Two Hundred a Day.

Atlanta, May 23.-About 2,000 recruits have arrived at Fort McPherson since that post was made the centralization point for that branch of the army. Every recruiting station in the country, from Maine to California, has sent some men, and they are still arriving at the rate of 200 a day.

It was not intended to send any of the men away until they were uniformed and equipped, but the need of men for the Philippines has brought about the necessity of getting more men in the regular army regiments in the west.

Colonel Cook yesterday asked for volunteers to go to the Philippines and 900 responded almost instantly but only 600 are wanted to make out the Third batallion of two regiments. It is likely these men will go to New Orleans to join the Eighteenth or Twenty-third regiments of the regular army before these egiments, which have been assigned to go with General Merritt, start for San

Francisco. The Spanish prisoners who are to be exchanged for Correspondents Thrall and Jones, now in Morro Castle will be started for Cuba as soon as the department here is assured of connection at Miama with a boat for Havana. Springfield, Mass, May 23.-Edward Bellamy, author and humanitarian, died yesterday at his home in Chicopee Falls, in the forty-ninth year of his age.

Mr. Bellamy has been in feeble health ever since he finished his "Equality" some eight months ago. Indeed, long before it was completed he had the most significant warnit that his vital energies were being undermined, although it was not till August that his physicians definitely told him that one of his lungs was effected. At the earnest solicitation of his physicians and family he resolved to try the effect of the Colorado climate, and early in September last removed with his family to Denver, where he was welcomed by a host of friends. He received, however, little or no benefit from the change and since January has been rapidly failing. President of the Revolutionary Junta Talks of the Results of the Battle-The Large Casino Was Totally Destroyed by the American Boat's Guns-High Price of Provisions-Horseflesh Worth Seventy-Five Cents a Pound-Insurgents

Key West, May 23.-There were only one or two ships in the harbor yesterday and they were coaling with all haste to get away to join their follows in action, which all are convinced is only a matter of days, perhaps hours. Speculation is still concentrated on the whereaboats of Admiral Cervera's squadron, the general opinion favoring some sides of the island are now patrolled by United States warships, the naval authorities will not admit the possibility of Cervera's escape without the most Illinois reaching here first, followed by desperate conflict in the history of naval

Reports from Admiral Sampson's squadron say that all is quiet off the northern coast of Cuba. Nothing from Commodore Schley is expected before tomorrow. A rumor has reached here that four American warships, while bombarding Santiago de Cuba, had been driven off by the Spanish fleet, but the story is generally discredited.

Senor Ernesto Castro, a well known lawyer, and president of the revolutionary junta of Cardenas, arrived here yesterday on the United States gunboat Annapolis. During the recent bombardment at Cardenas Senor Castro was in the bay in a small boat, trying to reach the American vessels and get transportation to the United States on an important mission. He was compelled to return to the shore, where he saw and heard of the results of the bombardment.

The Spanish gunboats that lured the United States torpedoboat Willslow in to the death trap were the Antonio Lopez, Lealtad, and Ligera. During the fight the two former retreated behind the wharves and the Ligera behind the Key. It was the Antonio Lopez that opened fire on the Winslow and decoyed her into the channel. The Spanish troops formed on the public square. not daring to go to the wharves; all of the Spanish flags were lowered, as they furnished targets, and the families all fled to Jovellanos.

Senor Castro says an American shell exploded in the very entrance to the ington today. Spanish casino, shattering the building and setting it on fire. The Casino, which had been used as a military headquarters and infantry barracks, and which was the largest structure in the town, was utterly destroyed. Other buildings were wrecked. Some of the shots went so far as the Triente sugar plantation, two miles in the interior. The Spanish loss of life, Senor Castro

believes to have been very heavy. It was so reported. After the bombardment ceased the military commander pressed all able bodied men into the work of carrying sand to build new batteries, and the next day 1,200 men were brought from Matauzas and Havana to continue the work. Senor Castro, after passing four days

on the Piedras Key, signalled the United States gunboat Wilmington and was taken off. He says famine prevails everywhere in Cuba. In Cardenas rice is 25 cents a pound, condensed milk sells at \$1.50 per can and horseflesh brings 75 cents a pound. There is no beef or bread. The insurgents are in dire distress.

Formerly provisions were smuggled from the cities, but that relief is now impossible since the cities themselves are starving. The insurgents are trying to subsist on peppery wood and palm buds. Senor Castro tasted meat for the first time in five weeks.

EXCESSIVELY DELIBERATE.

Movements of Admiral Cervera Criticised by London Times,

London, May 23. - The Times this morning, in an article reviewing the war, takes it for granted that Admiral Cerevera's squadron coaled in Venezuelan waters from four British colliers. It suggests that the cruisers Vizcaya and Infanta Maria Teresa risked a disadvantage in being reported there in consideration of their ability to send dispatches to General Blanco and then to have rejoined the flagship at a prearranged rendezvous and to have arrived at Santiago on the 19th.

The Times says: "Even if it took a longer route to escape observation, Admiral Cervera's force has been excessively deliberate in its movements and his fast cruisers have not yet shown great speed. His strategy, so much boasted at Madrid, is not yet apparent. Possibly his movements are hampered by the torpedoboats, but the extreme slowness of his ocean steaming destroyed point on the southern coast. As both his chance of dealing an effective blow at Key West, at Tampa or against the blockading force denuded of its most efficient vessels by Admiral Sampson's abortive raid on San Juan de Perto Rico.

The high speed of the Spanish cruiser squadron so far has not been turned to any account, and although its arrival at Santiago de Cuba may have some moral value in assuring the Cuban garrisons that they are not abandoned, no naval object seems to have been attained. The United Stat commanders now know where the enemy is and have had time to concentrate superior forces and to cover their vulnerable points."

Discussing the problem of a blockade of Admiral Cervera at Santiago de Cuba or an attempt to force him to give battle, The Times article says:

"The United States commanders possess ample forces, but night and the speed of the Spanish cruisers will give them chances to escape. The result will be watched with much interest. The defences at Santiago are probably no more effective than those of Manila."

The Interests of the United States in China.

The growing jealousy with which both

branches of the Anglo-Saxon race are regarded by the leading powers of the European continent is, at any rate, a fact which has to be reckoned with, and nowhere more than in the far east where both Great Britian and the United States have such vast interests at stake. If it was Great Britain who more than fifty years ago first made a preach in the geart wall of Chinese self-isolation, America can claim to have played the leading part in rendering Japan amendable to the influence of western civilization. Shanghai the greatest emporium of foreign trade in the far east, bears witness to the shrewdness and enterprise of the English and America pioneers who laid the foundations of the "model settlement." If the volume of American trade with China and Japan does not bear comparison with that of the British Empire t is greater than that of any other European country, and it is unquestionably capable of immense development in the future. For the day no onger is far distant when the piercing of the isthmus will bring the eastern seaboard of the States into scarcely less close touch with the far east than the western seaboard, which looks straight across the Pacific to the shorss of China and Japan. The shrewdness aponwhich Americans deservedly pride themselves would therefore have been singularly at fault had they not recognized that the battle which Great Brlt ian is waging for the preservation of of China as a great tradal area open to the whole world is one that concerns them almost as nearly as ourselves .-From "The Situation in China," by Cathy, in Harper's Magazine for June.

The Interests of the United States in China.

The growing jealousy with which both branches of the Anglo-Saxon race are regarded by the leading powers of the European continent is, at any rate, s fact which has to be reckoned with, and nowhere more than in the |far east where both Great Britian and the United States have such vast interest at stake. If it was Great Britain who more than fifty years ago first made a breach in the geart wall of Chinese self-isolation. America can claim to have played the leading part in rendering Japan amendable to the influence of western civilization. Shanghai the greatest emporium of foreign trade in the far east, bears witness to the shrewdness and enterprise of the Engish and America pioneers who laid the foundations of the "model settlement." If the volume of American trade with China and Japan does not bear comparison with that of the British Empire, t is greater than that of any other European country, and it is unquestionably capable of immense development in the future. For the day no longer is far distant when the piercing close touch with the far east than the western seaboard, which looks straight across the Pacific to the shorss ot Thina and Japan. Mrs. Herman Hohnstreiter Seeks Death With Carbolic Acid.

Mrs. Herman Hohnstreiter, residing in Redding township some three miles north-east of the city, died just before 2 o'clock Sunday afternoon, May 22, 1898, from the effects of carbolic acid taken, it is thought, with suicidal intent. She arose quite early in the morning and insisted on the family going to church, the German Lutheran in the city, where she and the family belonged. A part of the family remained at home. She talked Saturday RELIEF STEAMERS FOR MANILA about going to die Sunday and gave directions in regard to her funeral robe which was a black dress she had worn for some time. The fatal drug was usually kept in the kitchen cupboard but it was found after her death in the smoke house where she had Sampson and Schley Supposed to placed it with about four tablespoonsful gone. She went to an out house and fastened the door on the idside. The family found the old lady there and when discovered she was quite rigid although life was not extinct. She was taken into the house and Dr. Hunter, of Reddington, was sent for but she died n a few minutes after he arrived. He nad no trouble in determining the cause of death. She was about fiftyseven years old. A husband an eight children survive. There is no doubt but her mind had been unbalanced for some time on account of sickness and leath in the family.

Want a Street Fair.

Jeffersonville is taking steps to hold a street fair this year. A public meeting was held last week to learn the sentiment of the people. The Jeffersonville News says:

"People who attended the Seymour street fair last fall know what a success it was and these especially should be present. There is no reason why Jeffersonville should not eclipse Seymour and put up an entertainment that would draw thousands of people to the banks of the Ohio. The town would be advertised as it never has before and a class would be drawn here that would eave considerable money in the city.'

Music Shops on Ocean Liners.

From a single venture five years ago small shops for the sale of musical instruments have become a regular thing

From the beginning the music shop was quite a success. Perhaps most of its trade runs in the direction of cheap banjos, which are bought by almost every man on board before the voyage as a means of passing the time. Valuable violins are often more easily

disposed of at sea than on shore, while even pianos meet with at least four or five customers each voyage, many peo ple disposing of their own instruments before starting and being readily persuaded into buying others to avoid the middleman on landing.

The seabound music shop agent usual ly travels first class, and as he is generally possessed of gentlemanly manners and glib tongue he meets with better opportunities for pushing his wares than he would get under ordinary circumstances. - London Globe.

Want a Street Fair-

Jeffersonville is taking steps to hold street fair this year. A public meetng was held last week to learn the sentiment of the people. The Jeffersonville News says:

"People who attended the Seymour street fair last fall know what a success it was and these especially should be present. There is no reason why Jeffersonville should not eclipse Seymour and put up an entertainment that would draw thousands of people to the banks of the Ohio. The town would be advertised as it never has before and a class would be drawn here that would leave considerable money in the city.

Deafness Cannot be Cared. By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the musous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result and cream is always the best. unless the inflammation can be taken out and this tube restored to its normal you rock bottom on all our goods. Probably no subject connected with health is so important and so little inderstood as the conservation of vital The human organism is a wonderful machine, and is so constructed that if ex-haustive draughts are made upon the vital forces during youth and middle life, the mechanism responds for the time, but at the expense of its future usefulness. The man who overworks or exhausts himself day after day is constantly overdrawing his store of vital force. Finally the mechanism of supply breaks down and the man becomes a physical bankrupt. The mechanism of supply in a man is his stomach. There the food is transformed into vital force. If the stomach is weak and the di-gestion impaired, the body ceases to receive and store up vital force. If the draught is continued, consumption or some other equally fatal disease is the result. Dr. Pierce's Golden Medical Discovery is a great producer of vital force. It enables a man to daily store up energy to do almost any amount of work or stand any amount of exposure. A Quiet Day at the Park - Improvised Waterworks.

Chickamauga National Park, May 28. -Sunday was a quiet day at Camp Thomas. The Second Nebraska regiment arrived and were assigned to the campgrounds selected for the first division of the Third corps. Only two battalions arrived yesterday. The second battalion of the Second Nebraska, which had become seperated from the regiment at St. Louis, came in over the Cincinnati Southern. The belated battalion was commanded by Major W. C.

The First batallion of the One Hundred and Fifty-seventh Indiana infantry arrived in Chattanooga yesterday, accompanied by the regimental band of 24 pieces. The batallion spent the day on Lookout mountain and reached the park last evening sleeping under the stars on

Lytle hill during the night. As a result of the few arrivals the railroad yards which have been enormously congested with loaded and empty cars for nearly a week were given an opportunity to clear off the tracks and sidings to make room for the troops that begun to arrive this morning.

Twenty-five cars of provisions arrived yest day and were stored in the large warehouses now completed on the park grounds near the depot of the railroad company. Fifty-one of the latest and most improved ambulances, built with a special view to adaptibility in a hot climate, arrived from South Bend, Ind., and will be distributed to the first

The Fourth Ohio regiment, under Colonel Coit, has been assigned to provost guard duty in Chattanooga, by order of General Brooke, made neces sarv by the disorderly conduct of many of the young soldiers who have been guilty of many lapses of discipline, in a number of cases to violence and insulting ladies in the street. Colonel Coit began his duties today.

General E. B. Williston from the United States Third artillery, who has been assigned to the artillery brigade here, has arrived and reported to General Brooke. General Williston states that he found his brigade about complete and equipped with the very important exception that they have neither fieldguns, horses nor ammunition. A part of these equipments have arrived and General Williston hopes to get all needed supplies by the middle of the

FORT M'PHERSON.

Recruits Arriving at the Rate of Two Hundred a Day.

Atlanta, May 23 .- About 2,000 re cruits have arrived at Fort McPherson since that post was made the centralization point for that branch of the army. Every recruiting station in the country, from Maine to California, has sent some men, and they are still arriving at the rate of 200 a day.

It was not intended to send any of the men away until they were uniformed and equipped, but the need of men for the Philippines has brought about the necessity of getting more men in the regular army regiments in the west.

Colonel Cook yesterday asked for volunteers to go to the Philippines and 900 responded almost instantly but only 600 are wanted to make out the Third batallion of two regiments. It is likely these men will go to New Orleans to join the Eighteenth or Twenty-third regiments of the regular army before these . egiments, which have been assigned to go with General Merritt, start for San

Francisco. The Spanish prisoners who are to be exchanged for Correspondents Thrall and Jones, now in Morro Castle will be started for Cuba as soon as the depart ment here is assured of connection at Miama with a boat for Havana. Colonel Cortijo and Surgeon Julian are still in ignorance of the exchange.

SLOW WORK IN ALABAMA.

National Guard Want to Preserve Their Organization and Name.

Mobile, Ala., May 23.-The Alabama volunteers are organizing slowly. The first regiment still requires 25 men. The second regiment is short several hundred. The difficulty arises from the fact that the militia companies belonging to the national guard want to preserve their name and organization. The most of these companies have not more than 30 or 40 men and the communities being small, this number cannot be iucreased to the regulation number of 80.

To merge with companies from other communities is to lose name and sometimes history extending through two

The batallion, which is to be composed of negroes exclusively, will be brought to camp here tomorrow. The negroes have volunteered far in excess of the call and the pick of the number will give one of the finest bodies of troops the south will contribute.

"McKiuley Peacemakers,"

Reading, Pa., May 23.-On a rush telegram from Washington, the Carpenter steelworks late Saturday night sent one hundred and fifty 13-inch projectiles, destined for Sampson's fleet. These weigh 1,200 pounds each and will go through anything Spanish affoat. Over 800 projectiles of somewhat smaller size were sent today to San Francisco, for Dewey at Manila. The 13-inch projectiles are popularly known here as "Mc-Kinley's peacemakers."

Illinois Troops at Jacksonville, Fia. Jacksonville, Fla., May 23.-The first of the troops to be encamped here arthe second Wisconsin. Both number about 1,000 men each. The north camp is in command of Brigadier General H. W. Lawton. The North Carolina regiments will reach here today and others will follow later on.

General Brooke Confirms a Report. Washington, May 23 .- The secretary of war has received a brief telegram from General Brooke confirming the report of the accident at Chickamauga Saturday to a train carrying Missouri volunteers. He states that one man was killed and four injured, and that the remains of the one killed have been sent to his friends in Missouri. He also says the injured men are being cared for at the hospital.

EDWARD BELLAMY.

Author of "Looking Backwards" Expires at Chicopee Falls.

Springfield, Mass, May 23 .- Edward Bellamy, author and humanitarian, died yesterday at his home in Chicopee Falls, in the forty-ninth year of his age. Mr. Bellamy has been in feeble health

ever since he finished his "Equality" ome eight months ago. Indeed, long significant warnin that his vital energies were being undermined, although it was not till August that his physicians definitely told him that one of his lungs was effected. At the earnest solicitation of his physicians and family he resolved to try the effect of the Colorado climate, and early in September last removed with his family to Denver, where he was welcomed by a host of friends. He received, however, little or no benefit from the change and since January has been rapidly failing. When he recognized that recovery was impossible he became very anxious to get back to his old family homestead at Chicopee Falls, Mass., where he was born and where had lived his entire

Naval Authorities at the lity on behalf of Spain." Keys Think Its Escape Impossible.

RECENT CARDENAS FIGHT

Vessels That Lured the Winslow Into the Bay.

President of the Revolutionary Junta Talks of the Results of the Battle-The Large Casino Was Totally Destroyed by the American Boat's Guns-High Price of Provisions-Horseflesh Worth Seventy-Five Cents a Pound-Insurgents In Dire Distress.

Key West, May 23.—There were only one or two ships in the harbor yesterday and they were coaling with all haste to get away to join their follows in action, which all are convinced is only a matter of days, perhaps hours. Speculation is still concentrated on the whereaboats of Admiral Cervera's squadron, the general opinion favoring some point on the southern coast. As both his chance of dealing an effective blow sides of the island are now patrolled by United States warships, the naval authorities will not admit the possibility rived last night, the second regiment of of Cervera's escape without the most Illinois reaching here first, followed by desperate conflict in the history of naval

Reports from Admiral Sampson's squadron say that all is quiet off the northern coast of Cuba. Nothing from Commodore Schley is expected before tomorrow. A rumor has reached here that four American warships, while bombarding Santiago de Cuba, had been driven off by the Spanish fleet, but the story is generally discredited.

Senor Ernesto Castro, a well known lawyer, and president of the revolutionary junta of Cardenas, arrived here yesterday on the United States gunboat Annapolis. During the recent bombardment at Cardenas Senor Castro was in the bay in a small boat, trying to reach the American vessels and get transportation to the United States on an important mission. He was compelled to return to the shore, where he saw and heard of the results of the bombardment.

The Spanish gunboats that lured the United States torpedoboat Winslow into the death trap were the Antonio Lopez, Lealtad, and Ligera. During the fight the two former retreated behind It was the Antonio Lopez that opened fire on the Winslow and decoyed her into the channel. The Spanish troops formed on the public square, not daring to go to the wharves; all of the Spanish flags were lowered, as they furnished targets, and the families all fled to Jovellanos.

Senor Castro says an American shell exploded in the very entrance to the ington today. Spanish casino, shattering the building and setting it on fire. The Casino, which had been used as a military headquarters and infantry barracks, and which was the largest structure in the town, was utterly destroyed. Other buildings were wrecked. Some of the shots went so far as the Triente sugar plantation, two miles in the interior.

The Spanish loss of life, Senor Castro believes to have been very heavy. It was so reported. After the bombardment ceased the military commander pressed all able bodied men into the work of carrying sand to build new batteries, and the next day 1,200 men were brought from Matauzas and Havana to continue the work.

Senor Castro, after passing four days on the Piedras Key, signalled the United States gunboat Wilmington and was taken off. He says famine prevails everywhere in Cuba. In Cardenas rice is 25 cents a pound, condensed milk sells at \$1.50 per can and horseflesh brings 75 cents a pound. There is no beef or bread.

The insurgents are in dire distress. Formerly provisions were smuggled from the cities, but that relief is now impossible since the cities themselves are starving. The insurgents are try-ing to subsist on peppery wood and palm buds. Senor Castro tasted meat today for the first time in five weeks.

SENOR CAPDEPON.

He Talks of the New Ministry and Its Determination.

Madrid, May 23 .- Senor Capdepon, minister of the interior, has denied, in the course of an interview, that the change in the constitution of the ministry would involve any alteration in the foreign policy of Spain, all of the new ministers being in favor of prosecuting railroad company claimed that it was the war to the end with the utmost en-

"Spain," said Senor Capdepon, "went perilously near sacrificing her honor in the interest of peace, only making a stand when further concessions would have involved her disgrace and effacement as a nation. This she will never do, and in this the new cabinet is as thoroughly determined as the old. .'The new cabinet entertains no illu-

sions. It is aware that weakness and poverty are opposed to strength and wealth, but Spain is in the position of a powerful antagonist, who, although he is convinced that the result is almost certain death, yet feels the force of the principle of noblesse oblige.

EXCESSIVELY DELIBERATE.

Movements of Admiral Cervera Criticised by London Times, London, May 23. - The Times this

morning, in an article reviewing the war, takes it for granted that Admiral Cerevera's squadron coaled in Venezuelan waters from four British colliers. It suggests that the cruisers Vizcaya and Infanta Maria Teresa risked a disadvantage in being reported there in consideration of their ability to send dispatches to General Blanco and then to have rejoined the flagship at a prearranged rendezvous and to have arrived at Santiago on the 19th.

The Times says: "Even if it took a longer route to escape observation, Admiral Cervera's force has been excessively deliberate in its movements and his fast cruisers have not yet shown great speed. His strategy, so much boasted at Madrid, is not yet apparent. Possibly his movements are hampered by the torpedoboats, but the extreme slowness of his ocean steaming destroyed at Key West, at Tampa or against the blockading force denuded of its most efficient vessels by Admiral Sampson's abortive raid on San Juan de Perto Rico.

The high speed of the Spanish cruiser squadron so far has not been turned to any account, and although its arrival at Santiago de Cuba may have some moral value in assuring the Cuban garrisons that they are not abandoned, no naval object seems to have been attained. The United Stat commanders now know where the enemy is and have had time to concentrate superior forces and to cover their vulnerable points."

Discussing the problem of a blockade of Admiral Cervera at Santiago de Cuba or an attempt to force him to give battle, The Times article says:

"The United States commanders possess ample forces, but night and the speed of the Spanish cruisers will give them chances to escape. The result will be watched with much interest. The defences at Santiago are probably no more effective than those of Manila."

He Says Reported Battle by Sampson Was Probal te and That's All. Boston, May 23. - Secretary John D. SENATOR ROBBED.

Burglars Enter Mr. Mason's House and Secure \$4,000 Worth of Valuables.

Washington, May 23 .- Saturday night the residence of Senator William Mason of Illinois, in this city, was entered by burglars and jewelry to the value of nearly \$4,000 was stolen. Not a clue to either the burglars or the jewelry has been obtained. Last evening Senator Mason issued to the burglars a characteristic appeal, which he hopes will be heeded. It is as follows:

To the gentlemen who robbed my honse last

night:

I will pay in cash more than any one else for the watch and pin you took last night, and give you my word of honor that you shall not be prosecuted for the taking of them. The pin has a portrait of my little son who died years ago and it was, as was also the watch, a present to me. You can communicate with me by mail or in person and you can rely absolutely on my promise not to prosecute.

The Interests of the United States in China.

The growing jealousy with which both branches of the Anglo-Saxon race are egarded by the leading powers of the European continent is, at any rate, a fact which has to be reckoned with, and nowhere more than in the |far east where both Great British and the United States have such vast interests at stake. If it was Great Britain who more than fifty years ago first made a preach in the geart wall of Chinese self-isolation, America can claim to have played the leading part in rendering Japan amendable to the influence of western civilization. Shanghai the greatest emporium of foreign trade in the far east, bears witness to the shrewdness and enterprise of the English and America pioneers who laid the foundations of the "model settlement." Whooping Cough.

I had a little boy who was nearly cough. My neighbors recommended asked her to deliver it as an all suffi-Chamberlain's Cough remedy. I did not think that any medicine would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine ever had in the house.-J. L. Moore, South Burgettstown, Pa. For sale by

"Halloo, my lad," called Burr, and when the little fellow looked up with the air of one who has been caught in some misdemeanor he added pleasantly, "If ever you want to change your occupation and see life, just put a clean shirt in your bundle and go to this ad-

dress in New York," and he crossed

the road to hand the boy a slip of paper. The team was soon on its homeward way, and in a short time the incident passed from the crowded mind of Aaron Burr. Months afterward, as he sat at breakfast, a servant brought him a package containing a homemade clean shirt dead from an attack of whooping and said that a boy at the door had 50 cient introduction. Herman Hohnstreiter Seeks Death With Carbolic Acid.

Mrs. Herman Hohnstreiter, residing n Redding township some three miles north-east of the city, died just before 2 o'clock Sunday afternoon, May 22, 1898, from the effects of carbolic acid taken, it is thought, with suicidal intent. She arose quite early in the morning and insisted on the family going to church, the German Lutheran in the city, where she and the family belonged. A part of the family remained at home. She talked Saturday RELIEF STEAMERS FOR MANILA about going to die Sunday and gave directions in regard to her funeral robe which was a black dress she had worn for some time. The fatal drug was usually kept in the kitchen cupboard but it was found after her death in the smoke house where she had placed it with about four tablespoonsful gone. She went to an out house and fastened the door on the idside. The family found the old lady there and when discovered she was quite rigid although life was not extinct. She was taken into the house and Dr. Hunter, of Reddington, was sent for but she died n a few minutes after he arrived. He and no trouble in determining the cause of death. She was about fiftyseven years old. A husband an eight children survive. There is no doubt but her mind had been unbalanced for seme time on account of sickness and death in the family.

Want a Street Fair. Jeffersonville is taking steps to hold

street fair this year. A public meeting was held last week to learn the sentiment of the people. The Jeffersonville News says:

"People who attended the Seymour street fair last fall know what a success it was and these especially should be present. There is no reason why Jetfersonville should not eclipse Seymour and put up an entertainment that would draw thousands of people to the banks of the Ohio. The town would be advertised as it never has before and a class would be drawn here that would leave considerable money in the city.'
